Evan,

Notices of Coverage for the General NPDES permits for construction activity do not have an expiration date. They state that the coverage shall be terminated upon receipt of a Notice of Termination. Both of the permits that you have mentioned, TNR171717 and TNR171714 remain effective until a NOT is submitted. I will update the new project completion dates in our database.

If you have any questions, please let me know.

Thanks,
